Examiner's Detailed Office Action

Claim Objection(s)

1. Claim 31 is objected to for failing to provide proper antecedent basis for "information carrier wave" in the written description of the specification. The claims are broad enough to be interpreted as including signals.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. The invention as disclosed in claims 31-33 are rejected under 35 U.S.C. 101 as being non-statutory subject matter.
4. Claims 31-33 are directed to an abstract idea rather than a practical application of an abstract idea. Applicant's invention disclosed in claims 31-33 are directed to non-statutory subject matter "information carrier medium" of which, is considered to be broad enough to

Art Unit: 2121

include signals which are not fixed in a tangible medium readable by a machine. For this reason claims 31-33 are rejected.

Allowable Subject Matter

5. Claims 1-30 are allowed.
